

# UNIFORM MINISTERIAL EXAMINATIONS

## Results on the June 2011 uniform ministry examinations

---

This report was prepared by the Direction de la sanction des études with the cooperation of the Direction de la recherche, des statistiques et de l'information. It has been translated into English by the Direction des services à la communauté anglophone - Services langagiers of the Secteur des services à la communauté anglophone, des affaires autochtones et du Plan Nord.

## INTRODUCTION

The results on the June 2011 uniform ministerial examinations are presented for each school board and for the public and private school systems. This information reflects the desire of the Ministère de l'Éducation, du Loisir et du Sport to facilitate access to information that is in the public domain.

The report is divided into two parts: organization of the examination session, and results on the uniform examinations by administrative region, school board, public school and private school.

This information document is intended for educational institutions and the general public with a view to enabling:

- public and private educational institutions to have access to information for evaluating their educational practices, comparing their effectiveness over time, identifying their strengths and weaknesses, and comparing their performance with that of other educational institutions
- the general public to have access to official Ministère information

while taking into account the context and different characteristics of each educational institution when interpreting these results.

In order for the objectives of this publication to be met, it is important that educational institutions and the general public **keep in mind certain factors that may affect students' academic achievement** when comparing their students' marks with the provincial results. Such factors include the following.

- **Family situation:** The support and availability of parents, their financial situation and the family's standard of living in general are among the factors that may affect a student's academic achievement. Studies carried out in Québec and elsewhere have shown that the academic achievement of students from socioeconomically disadvantaged areas is generally lower. School boards have access to socioeconomic indicators for each of their schools and they should take these into consideration when reviewing results.
- **The geographic location of the educational institution:** Learning in some subjects, such as the second language, may be affected by the institution's location. For example, the conditions for learning English as a second language are not the same throughout Québec.
- **Mother tongue:** The proportion of students whose mother tongue is not the language of instruction may have an impact on examination results.
- **The integration of students with special needs into regular classes:** It is clear that in educational institutions that routinely integrate students with special needs into regular classes, the increased range of disparities among the students sitting for ministerial examinations may affect the overall success rates for those institutions.
- **The grouping, in some schools, of students with major learning difficulties or psychosocial integration difficulties:** Such students enrolled in special classes in an educational institution may have a significant impact on the overall performance of the school.
- **Different practices related to admission:** Some educational institutions take in all students, while others base admission on past academic achievement or performance on aptitude tests.

## **1. ORGANIZATION OF THE EXAMINATION SESSION**

### **1.1 Coordination**

The Direction de la sanction des études has the responsibility of defining and applying rules regarding the certification of studies in general education. Consequently, it has a mandate to coordinate the administration of uniform examinations, correct the examinations and publish the results.

### **1.2 Certification Requirements**

The certification rules in section 32 of the *Basic school regulation for preschool, elementary and secondary education* have been in effect since the 2009-2010 school year. To obtain a Secondary School Diploma (SSD), students must have accumulated a minimum of 54 Secondary IV and V credits, at least 20 of which must be at the Secondary V level or in vocational training. Of these 54 credits, the following are compulsory:

- 6 credits in Secondary V language of instruction
- 4 credits in Secondary V second language
- 4 credits in Secondary IV mathematics
- 4 credits in Secondary IV Science and Technology or 6 credits in Secondary IV Applied Science and Technology
- 4 credits in Secondary IV History and Citizenship Education
- 2 credits in Secondary IV Arts Education
- 2 credits in Secondary V Ethics and Religious Culture or Physical Education and Health

### **1.3 Preparation of Examinations**

The responsibility for preparing examinations for the certification of studies is shared by the educational institutions and the Ministère de l'Éducation, du Loisir et du Sport. Each year, the Ministère selects a certain number of subjects for which it will prepare uniform examinations. Evaluation in the other subjects is the responsibility of educational institutions.

However, for some subjects, complementary examinations are prepared by the Ministère and made available to the educational institutions.

The following are some of the characteristics of uniform examinations:

- The examinations are prepared by teachers and education consultants in the English and French sectors of the education system. Every year, many people contribute to the development of uniform examinations and the Ministère coordinates the entire operation.
- These examinations are not field-tested prior to being administered to students in Québec schools; however, this does not preclude the field-testing of certain items that seem especially problematic. A new examination is developed for each subject and each examination session. The Ministère strives to develop examinations that are comparable from one session to another.

#### **1.4 Administration of Examinations**

Every year, the Ministère publishes an official timetable for the examination sessions. Educational institutions must fully respect this timetable. Educational institutions are responsible for administering the examinations and must provide the required premises and supervisory personnel. The Ministère provides the examination materials.

#### **1.5 Correction of Examinations**

The June 2011 uniform examinations were corrected by the educational institutions in accordance with the Ministère's instructions, with the exception of the following Secondary V examinations, which were corrected by the Ministère: the French, language of instruction, written production examination, the English Language Arts written production examination, and the French, second language, oral and written comprehension examination.

#### **1.6 Processing of Results and Determination of the Final Mark**

For each uniform examination, the final mark of the student is determined by taking into account the result on the uniform examination and the result obtained during the school year.

For the reasons specified below, the Ministère may use two procedures called **conversion** and **moderation**, which can affect examination results and school marks. However, under no circumstances does the Ministère normalize results in the statistical sense of the word. If it were to do so, it would have to change the raw scores for an examination so that the distribution of the scores would follow a normal bell curve.

### **Conversion**

To ensure that the examinations are fair, the Ministère endeavours to prepare examinations of comparable difficulty from one year to the next.

Despite the precautions taken during the development of the examinations, abnormally high failure rates may occur. In this case, the Ministère may either take corrective measures—for example, by removing a poorly worded question—or convert the results. Conversion is a procedure that involves raising all the scores of an examination slightly, thereby lowering the failure rate. In this respect, the first paragraph of section 470 of the *Education Act* stipulates that, “The Minister may, to avoid penalizing students unduly, revise the results obtained by them in the examinations he imposes, to compensate for any error or ambiguity in the examinations brought to his attention after they are taken.”

In June 2011, no examinations were converted. Two questions were removed from the oral and written comprehension component of the Secondary V French, second language examination.

### **Moderation**

School marks, which are taken into account in determining the final mark on a uniform examination, may vary considerably from school to school and from class to class. These differences may be explained by a number of factors. The degree of difficulty of the local examinations varies from one educational institution to another. Some classes are heterogeneous, while others are more homogeneous and include only the strongest, average or weakest students. Finally, some institutions normalize their marks.

Thus, two groups of students from different classes or schools may have identical results on the local examinations, but it is impossible to determine objectively if the students’ level of performance is in fact the same. Uniform examinations are administered to all students enrolled in a given course; therefore the results on such examinations are a good indication of the performance of different classes. It is thus possible to use the marks

obtained on a uniform examination to “moderate” the school marks, that is, to minimize or eliminate the impact of the local variables mentioned previously.

When the Ministère uses moderation, it compares, for each class (usually about 30 students), the school marks and the uniform examination marks. Using a statistical procedure, the school marks for each class are changed so that they are consistent with the marks obtained on the uniform examination by this class, according to the mean and the standard deviation (that is, the dispersion of marks around the mean).

Moderation involves adjusting each student’s school mark upward or downward. It cannot, however, result in the failure of any student who has obtained a pass mark on the uniform examination.

### **Final Mark on the Uniform Examination and Final Mark in a Subject**

For each subject that has a uniform examination, final marks are made up of the students’ moderated school marks and their results (converted or not) on the uniform examinations.

When there is more than one uniform examination for a subject, or when one or more components of a subject are evaluated by the school alone, a comprehensive final mark that takes all these evaluations into account is then calculated. The final mark for each subject for which a uniform examination is administered serves as the basis for determining the average marks and success rates published in this report.

## **1.7 Publication of Results**

The Ministère is responsible for publishing the results. After an examination session, it publishes official documents for students and the data lists for educational institutions. This information is distributed as soon as possible after each examination session.

Educational institutions may thus evaluate their performance immediately and modify their educational practices as needed in order to ensure the academic success of their students.

Finally, the Ministère publishes an annual report intended for educational institutions and the general public.

## **2. EXAMINATION RESULTS**

Part II of this report first presents an overview of the examination results on the June 2011 uniform examinations and the results recorded for all of Québec and for each administrative region. It then presents the June 2011 examination results for each school board and public school as well as for each private school. The number of examinations taken and the number of students are also given.

### **2.1 Overview**

In June 2011, five uniform examinations in the French sector (for two subjects) and five in the English sector (for two subjects) were administered to Secondary V students.

#### **Examinations in French Sector**

- 132-520 French, language of instruction, written production
- 134-510 English, second language, oral interaction, core program
- 134-530 English, second language, written production, core program
- 136-540 English, second language, written comprehension, enriched program
- 136-550 English, second language, written production, enriched program

#### **Examinations in English Sector**

- 612-520 English Language Arts, reading
- 612-530 English Language Arts, production
- 634-510 French, second language, oral interaction, core program
- 634-520 French, second language, oral and written comprehension, core program
- 634-530 French, second language, written production, core program

Table 1 presents a few points of general information on the June 2011 session for all of Québec. The equivalent data for June 2007, 2008, 2009 and 2010 are also presented.

**TABLE 1 EXAMINATION SESSIONS, 2007 TO 2011**

	2007	2008	2009	2010	2011
Number of Uniform Examinations	18	18	14	8	10
Number of Students Taking One or More Uniform Examinations	159 292	159 479	98 480	75 875	75 955
Number of Examinations Taken by These Students	373 983	373 057	190 078	124 259	135 334

Table 2 shows the average marks and success rates on the June 2011 examination session for all of Québec and for students grouped according to certain variables. The equivalent data for June 2007, 2008, 2009 and 2010 are also included.

**TABLE 2 UNIFORM MINISTERIAL EXAMINATION RESULTS ACCORDING TO CERTAIN VARIABLES, 2007 TO 2011**

	Average Mark (%)					Success Rate (%)				
	2007	2008	2009	2010	2011	2007	2008	2009	2010	2011
All of Québec	73.2	72.8	74.4	75.3	75.4	84.4	84.2	87.4	93.1	93.2
Public Schools	71.4	70.8	72.8	73.8	74.1	81.8	81.6	85.6	91.7	91.8
Private Schools	80.4	80.2	81.6	80.2	79.9	95.0	95.0	96.6	98.4	98.1
Language of instruction: French	73.4	73.0	75.0	75.5	75.7	84.8	84.4	88.2	93.3	93.4
Language of instruction: English	71.4	70.6	70.8	73.4	73.3	82.4	81.8	83.6	91.9	92.2
Girls	73.8	73.4	75.2	76.7	76.7	85.4	85.0	88.6	94.7	94.7
Boys	72.6	72.0	73.6	73.7	73.9	83.2	83.2	86.4	91.4	91.5

Table 3 presents the number of examinations taken, the number of students, the success rates and the average marks obtained in the June 2011 examination session, in the public and private school systems, for each administrative region.<sup>1</sup>

---

<sup>1</sup> Figures for the Nord-du-Québec region include the Cree and Kativik school boards, which are not counted in the public sector. The Commission scolaire de la Baie-James, which falls under the Kativik School Board, had an average mark of 73.4% and a success rate of 91.9%.

## **2.2 Results by Educational Institution and Administrative Region**

The results presented in this section should make it possible to assess the performance of schools with respect to academic success. However, this information should be used with discernment, taking into account the factors indicated previously, which can affect students' academic achievement.

It is easy to find specific schools, as they are all listed by administrative region and in alphabetical order. Overall results for English school boards have been grouped under the region of the school board's head office; however, data for each school can be found under the region in which each school is located.

The results for all of Québec, presented at the beginning of each table, include all results obtained during the June 2011 examination session. Results for the public school system, also presented at the beginning of each table, do not include those for the Cree School Board and the Kativik School Board, which are not published in this report.

The results for the June 2011 uniform examinations are presented in tables 6, 7, 8 and 9.

TABLE 6 presents results for all the uniform examinations, for all educational institutions in Québec.

TABLE 7 presents results for all the uniform examinations, for all educational institutions in Québec educating students in French.

TABLE 8 presents results for all the uniform examinations, for all educational institutions in Québec educating students in English.

The Commission scolaire du Littoral and some schools provide instruction in both languages. Their results therefore appear in both tables 7 and 8.

TABLE 9 presents the success rates for each uniform examination, by educational institution.

In each table, the results for schools in the public and private systems are presented separately. For each institution presented in tables 6, 7 and 8, the following information is given: the number of institutions, the number of examinations taken, the average mark (%), the success rate (%), the rank of the institution and the variance of the success rate in relation to the success rates of all the public and private institutions listed in the table. Table 9 provides the success rate for each uniform examination as well as for the final result in subjects having multiple-component examinations.
