

# Québec Education Program Progression of Learning

English Language Arts Elementary Cycle One 2021-2022 School Year

Learning to Be Prioritized for the 2021-2022 School Year in the Context of the Pandemic

This document is identical to the one produced for the 2020-2021 school year.

## **Table of Contents**

Introduction	3
Conventions of Written and Media Language	4
Language-Learning Processes	6
Text Types, Structures and Features	9
Self-Expressive Text Types	10
Narrative and Literacy Text Types	12
Information-Based Text Types	15

#### Introduction

This document is a complementary to the *English Language Arts* (ELA) program. It neither replaces nor rewrites the current elementary ELA program of study. The focus of the document is on providing more information to teachers about some of the requirements found in the content of the ELA program and their connection to the progressive development of literacy from the beginning to the end of elementary school. Teachers are encouraged to include this document in their planning for teaching. As is the case with the ELA program, this program supplement also plays an important role in determining short- and long-term pedagogical strategies and goals.

The ELA program is first and foremost a literacy program in which speaking, listening, viewing, writing and production of media texts are learned in an integrated fashion. This integration lies at the core of the development of critical literacy. Similarly, the three sections that follow assume a connection between the development of essential knowledge about language and texts, and the language-learning processes that mobilize this knowledge, giving it context, purpose and function.

The first section of the document describes the conventions of written and media language that represent the building blocks on which language as a system is constructed. Students learn how these building blocks work through active engagement with language in situations where they have the opportunity to both enjoy spoken, written and media texts, and create them.

The students' knowledge about how language conventions influence the ways in which we communicate is learned in action, through the language-learning processes that comprise the second section of the document. These processes are vital insofar as they provide students with essential knowledge that will enable lifelong literacy and learning. Knowledge about the context in which a text is written or produced, the meaning(s)/message(s) it conveys and the audience to whom it is directed provide the foundation for the growth of critical and fluent speakers, listeners, readers, writers and producers. This knowledge is central to the response, writing and production processes described here.

We communicate with one another through the creation of different text types, all of which have explicit and important purposes in shaping our life in society. The third section of the document looks at a number of essential social functions that texts play in the world in the form of required texts, together with the structures and features of these required text types. Students develop their knowledge of how texts work as they interpret, write and produce texts. In this sense, the essential knowledge described in the section on text types, structures and features develops in tandem with the processes students' use to construct meaning(s) and what they are learning about the conventions of written and media language.

All of the existing content in the ELA program plays a key role in the development of literacy, whether or not it reappears in the program supplement. For example, given the amount of information on the conventions and development of spoken language that is already contained in the ELA program, including it in this document would have resulted in nothing more than repetition. In other words, it is anticipated that teachers will integrate the existing program content with the additional information provided in this document as they plan for teaching.

## **Conventions of Written and Media Language**

Print and images are read and produced differently. The following chart specifies the knowledge students are expected to develop about these conventions throughout their elementary education. However, it is understood that students are not expected to locate or identify parts of speech in a discrete fashion, such as in an objective test. Rather, it is anticipated that students learn these conventions in increasingly more complex contexts and in relation to more complex texts.

## **Language-Learning Processes**

Knowledge about the processes used to read, interpret, write and produce written and media texts is central to the development of critical literacy. The processes detailed in the following chart are: response process, writing process and production process (media texts). It is anticipated that these different processes develop throughout elementary school as students work with increasingly complex purposes, texts and audiences. Any process is by definition nonlinear in its development, as well as context- and text-dependent in its application, making it vital that students' work consistently with these language-learning processes throughout each cycle of elementary school.

#### **Text Types, Structures and Features**

The *Elementary English Language Arts* (ELA) program focuses on the broad categories of self-expressive, narrative, literary, popular and information-based text types. The distinction between literary and narrative is made to accommodate students' own writing and media production, both of which fall into the latter category.

The following charts indicate the knowledge about required self-expressive, narrative-literary and information-based text types that students are expected to develop by the last year of elementary school. This knowledge includes required texts in each broad category, such as illustrated picture books in the narrative-literary category, as well as an understanding of the structures and features found in specific text types. Students use this knowledge to construct meaning while listening to, reading, writing, viewing and/or producing texts. The expectation here is that students learn about different texts by examining their specific structures and features, rather than being asked to identify or define terms in an isolated fashion.

In each of the three charts that follow, required texts are listed (e.g. A-1) followed by their structures and features, (e.g. A-2). It should be noted that the popular text types referred to in the ELA program have been included in the self-expressive, narrative-literary and information-based text type categories. As well, the required texts have been categorized according to their most common social purpose or function. For example, although the journal appears in self-expressive text types, journals may also include narrative and information. However, the main social purpose of a journal is to record one's memories, experiences, hopes, ideas and reflections, rendering it a perfect example of a self-expressive text type.

- Self-Expressive Text Types
- Narrative and Literary Text Types
- Information-Based Text Types

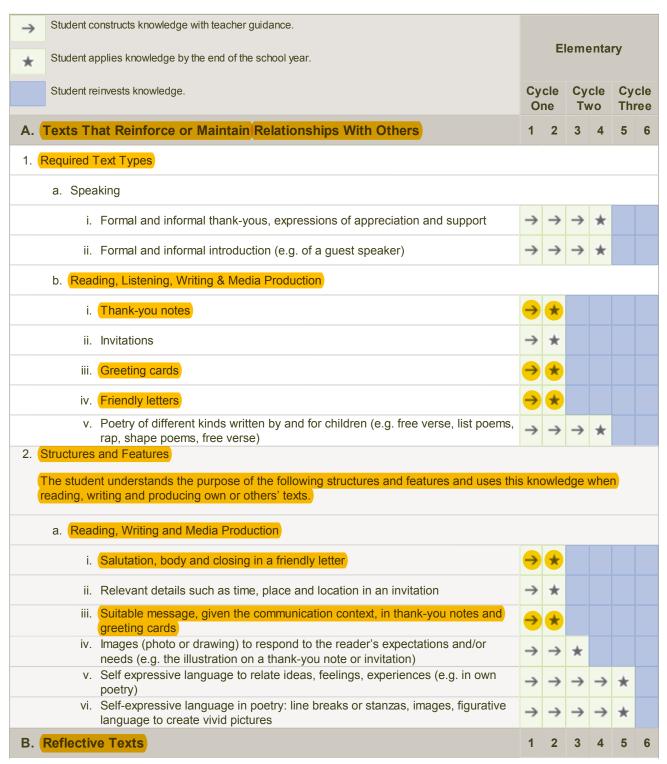

#### **Text Types, Structures and Features**

#### **Self-Expressive Text Types**

Self-expressive texts allow us to participate in the life of family, friends and community. The complexity of a self-expressive text is achieved through the way its structures and features interact to create meaning(s). For this reason, the progression that students demonstrate in working with knowledge about how self-expressive texts are constructed is directly related to the increasing sophistication of concepts, themes and social knowledge in the texts that they interpret, write and produce.

In the Elementary English Language Arts program, self-expressive texts fall into the following categories:

- Texts that reinforce and maintain relationships with others
- Reflective texts that help us to reflect on, think and wonder about life, current events and personal experiences, as well as to reflect on our actions and evaluate what we learn.

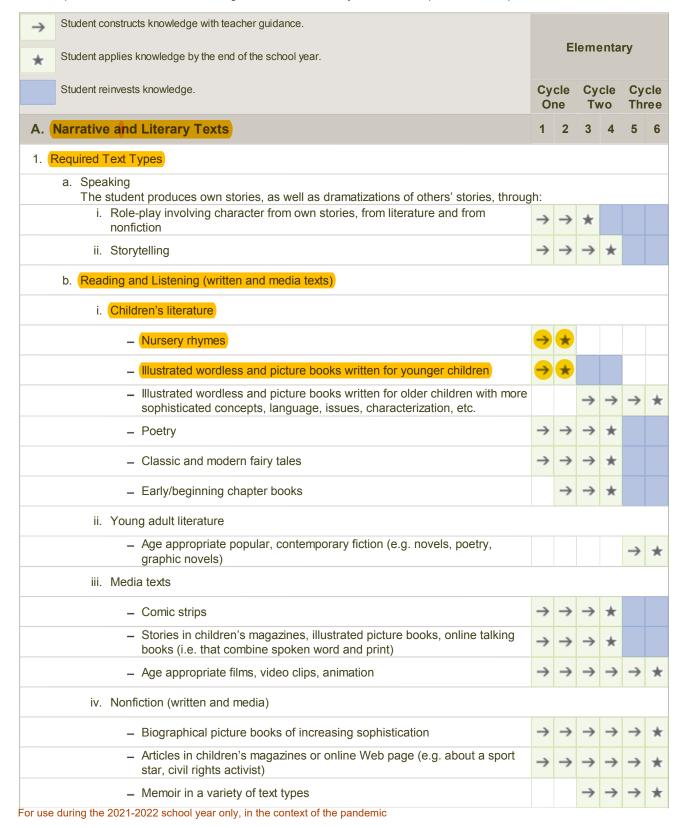

I. Required	Text Types					
a. Spe	aking

iii.	Synthesis of ideas and feelings to focus on what is most important	$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$

#### **Text Types, Structures and Features**

#### **Narrative and Literary Text Types**

Narrative texts are one of the oldest forms for recording and making sense of human experience, as well as articulating the world of the imagination.

The complexity of a narrative or literary text is achieved through the way its structures and features interact to create meaning(s), concepts, the passage of time and characters. For this reason, the progression that students demonstrate in working with knowledge about how narrative-literary texts are constructed is directly related to the increasing sophistication of concepts, themes and social knowledge in the texts that they listen to, interpret, write and produce.

1.	- Predictable story patterns						
		7					
	- Sequence of events	<b>→</b>	*				
	<ul> <li>Incidents (e.g. actions that take place in the story usually related to the main conflict)</li> </ul>	$\rightarrow$	$\rightarrow$	$\rightarrow$	*		
	<ul> <li>Foreshadowing, i.e. the use of hints or clues to suggest what will happen later in the story (Reading only)</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	*
	<ul> <li>Flashback (Reading only)</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	*
	<ul> <li>Episodes, e.g. typically the subject of a chapter (Reading only)</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	*
	<ul> <li>Conflict, i.e. central problem around which a story is typically organized.</li> <li>Examples would include man against man, man against nature, issues involving what is right or wrong, etc.</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	*
	<ul> <li>Resolution of conflict</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	*
	<ul> <li>Theme, i.e. the central or underlying meaning or dominant idea(s) that structures a narrative. It should be noted, however, that theme is not a textual structure that every reader interprets in exactly the same way.</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	<b>→</b>
ii.	Characterization						
	Main character in a story	$\rightarrow$	$\rightarrow$	$\rightarrow$	*		
	<ul> <li>Stock and/or flat characters, i.e. characters with only one or two qualities or traits. Stereotypes, such as the mean stepmother, are examples of flat characters.</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	*
	<ul> <li>Archetypes, e.g. the hero/heroine archetype, the villain, forces of good and evil such as superheroes (Reading only)</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$
iii.	Setting						
	<ul> <li>The physical landscape and social context in which the action of story occurs, i.e. its time and place</li> </ul>	$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$	*	
	<ul> <li>Descriptive details that construct the world of the story (e.g. the forest in Max's room allows the reader to move into the story)</li> </ul>	$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$	*	
iv.	Other features of narrative						
	<ul> <li>Literary conventions (e.g. "Once upon a time" in a fairy tale, moral in a fable)</li> </ul>	$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$	*	
	- Humor, suspense, repetition	$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$	*	
	<ul> <li>Dialogue, e.g. to reveal character</li> </ul>	$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$	*
	<ul> <li>Point of view, i.e. narrative voice in first or third person</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	*
	<ul> <li>Attitude of author to the material, i.e. writer's position (Reading only)</li> </ul>					$\rightarrow$	$\rightarrow$

<ul> <li>Media texts</li> <li>All of the structures and features of written narrative (above) also apply to na</li> </ul>	rratives in th	ne m	edia	In a	dditid	on
the student understands the purpose of the following structures and features construct meaning when viewing and producing media texts.						J11
i. Plot structure and features						
<ul> <li>Use of images (photos or drawings) to extend the story and to pro story details</li> </ul>	ovide	· ->	$\rightarrow$	*		
<ul> <li>Use of music and/or sound to create suspense, mood, humor, conetc. (Viewing only)</li> </ul>	nflict,	· ->	$\rightarrow$	$\rightarrow$	$\rightarrow$	
<ul> <li>Use of colour to suggest emotion, to create mood, etc.</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	
<ul> <li>Use of different scenes or episodes to move the story forward (Vi only)</li> </ul>	ewing		$\rightarrow$	$\rightarrow$	$\rightarrow$	
ii. Characterization						
<ul> <li>Surface appearance of a character (e.g. clothing, physical attribution)</li> </ul>	tes)	· ->	$\rightarrow$	*		
<ul> <li>Use of details to convey an imaginary character (e.g. wings, exagor invented facial features)</li> </ul>	gerated	· ->	$\rightarrow$	*		
<ul> <li>Use of explanation marks and speech bubbles to show thought a dialogue, e.g. in comic books or some animation films</li> </ul>	nd →	· ->	$\rightarrow$	*		
<ul> <li>Use of body language and gesture to convey character traits, including emotions (Viewing only)</li> </ul>	luding		$\rightarrow$	$\rightarrow$	$\rightarrow$	
<ul> <li>Use of music and/or sound to signal or stress some aspect of chae.g. music to signal the reappearance of a character such as Tinlor Captain Hook in Peter Pan (Viewing only)</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	
<ul> <li>Use of camera angle (e.g. use of low angle to make someone loo stronger or like a bully, high angle to make someone look weaker vulnerable)</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	
<ul> <li>Stereotypes of individuals and groups (e.g. perceptions about general comics and picture books) (Viewing only)</li> </ul>	nder in		$\rightarrow$	$\rightarrow$	$\rightarrow$	
iii. Setting						
<ul> <li>Repetition of symbols, or motifs, to create mood, suspense, sense continuity (e.g. scenes of the ocean in a story that takes place in Breton) (Viewing only)</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	
<ul> <li>Use of light and dark (e.g. to create a sense of foreboding, to cha time frame) (Viewing only)</li> </ul>	inge		$\rightarrow$	$\rightarrow$	$\rightarrow$	
<ul> <li>Clothing and other details that create a sense of time and location</li> </ul>	า		$\rightarrow$	$\rightarrow$	$\rightarrow$	

#### **Text Types, Structures and Features**

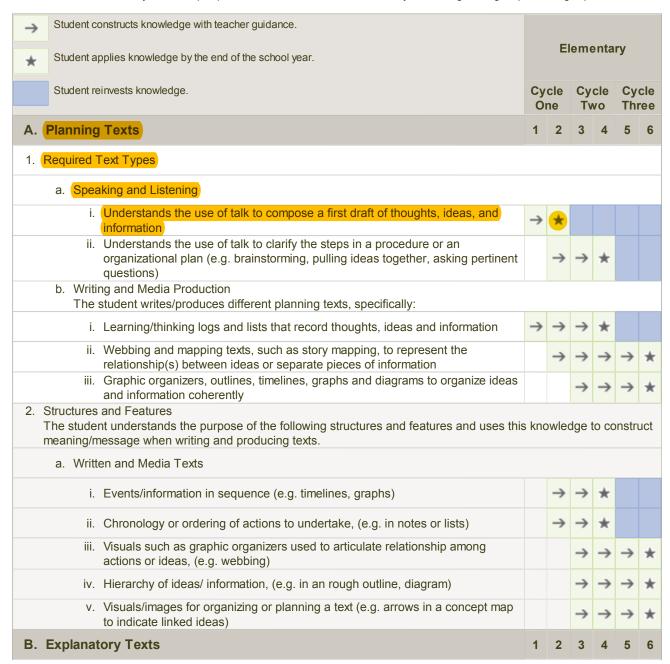

#### **Information-Based Text Types**

The vast majority of reading and writing done outside of school is information-based. These are the texts that we read in order to research, learn and gain information on a range of events, issues and topics.

The complexity of an information-based text is achieved through the way its structures and features interact to create meaning(s)/message(s). For this reason, the progression that students demonstrate in working with knowledge about how information-based texts are constructed is directly related to the increasing sophistication of concepts, themes and social knowledge in the texts that they interpret, write and produce.

In the Elementary English Language Arts program, information-based texts fall into the following categories:

- Planning texts are used to plan and organize our thoughts, ideas and actions, and to help us monitor our own learning
- Explanatory texts explain natural or social phenomena or how something works. They answer the questions "why" or "how."
- Descriptive reports describe the way things are or were, usually focusing on events, information or both.
- Persuasive texts try to move people to act or behave in a certain way, including selling or promoting a product.

. Required	Text Types						
a. Spe	eaking)						
j	Directions and instructions (e.g. for a game)	<b>&gt;</b>	*				
i	. Explanation of a procedure or how something works	$\rightarrow$	$\rightarrow$	$\rightarrow$	*		
iii	. Explanation of reasons for a decision		$\rightarrow$	$\rightarrow$	$\rightarrow$	*	١
b. Rea	ading, Listening, Writing and Media Production						
i	. Texts that explain a process/procedure (e.g. rules, recipes, directions)	$\rightarrow$	$\rightarrow$	*			
i	. Illustrated and multimedia how-to books	$\rightarrow$	$\rightarrow$	$\rightarrow$	*		
iii	. Texts that explain how or why something happens using a narrative structure (e.g. picture books such as <i>The Magic School Bus</i> , magazine articles)	$\rightarrow$	$\rightarrow$	$\rightarrow$	*		
iv	. Posters that explain		$\rightarrow$	$\rightarrow$	*		
V	. Web sites (Reading and Viewing only)			$\rightarrow$	$\rightarrow$	$\rightarrow$	
The stud	s and Features ent understands the purpose of the following structures and features and uses this , reading, writing and producing texts.	s kno	owled	dge v	whei	n	
a. Spo	oken, Written and Media texts						
i	. A title and a series of logical steps, in images and/or print, explaining how or why something occurs	$\rightarrow$	$\rightarrow$	*			
i	. Headings, captions or labels to focus readers' attention on what is most important		$\rightarrow$	$\rightarrow$	*		
iii	Sequential/chronological organization of information to explain <i>how</i> and/or <i>why</i> something is done in the way it is		$\rightarrow$	$\rightarrow$	*		
iv	. Images (photo or drawing) and text features that provide additional information or contribute to the organization of information		$\rightarrow$	$\rightarrow$	*		
V	. Navigational aids such as table of contents or alphabetical listing in longer texts, index, headings and page numbers		$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$	
V	. Bibliography (if needed)			$\rightarrow$	$\rightarrow$	$\rightarrow$	
. Descrip	tive Reports	1	2	3	4	5	
Required	Text Types	,			·	5	
a. Spe	eaking e student produces:						
	spoken reports based on family, community or school experiences (e.g. field trips, favourite toys, special holidays)	<b>→</b>	*				
ii	spoken reports that describe the way things are or were (e.g. an observed event such as a solar eclipse, the stages of an experiment and what was observed, a report on a topic or issue of personal interest, such as the extinction of dinosaurs)		$\rightarrow$	<b>→</b>	*		
b. Rea	ading, Viewing and Listening (spoken, written and media texts)						
İ	. Nonfiction that describes and reports details about a topic (e.g. simple science trade books written for children)	$\rightarrow$	*				
i	. Articles in children's magazines that report (e.g. on a topic, event)		$\rightarrow$	$\rightarrow$	*		
iii	. Letters that describe or report (e.g. a character's letter that describes an experience or event)		$\rightarrow$	$\rightarrow$	*		
iv	Local and national newspaper articles that are appropriate and accessible to children		$\rightarrow$	$\rightarrow$	*		
V	Local and national radio and television news reports that are appropriate and accessible to children			$\rightarrow$	$\rightarrow$	$\rightarrow$	
V	. Web pages, blogs and Internet sites appropriate and accessible to children (e.g., short video clips)			$\rightarrow$	$\rightarrow$	$\rightarrow$	
c. Wri	ting and Media Production						

	Reports on personal experiences in family, classroom, or school (e.g. an	-	+				l
	anecdotal report)  Reports on topics/subjects of personal interest (e.g. short nonfiction texts,						
	magazine articles)	$\rightarrow$	*				
	Reports about their classroom or local community (e.g. in a class or school newspaper, on a class Web site or in a class blog)		$\rightarrow$	$\rightarrow$	*		
	s and Features						
	ent understands the purpose of the following structures and features and uses this writing and producing descriptive reports.	s Knc	owied	ige \	wner	<u>)</u>	
a. W	tten texts)						
	Title to indicate contents	$\rightarrow$	*				
	. General statement about the topic in opening paragraph (e.g. Dogs are mammals)		$\rightarrow$	$\rightarrow$	*		
	. Logical sequencing of details, facts, opinions based on events and/or information		$\rightarrow$	$\rightarrow$	*		ĺ
	. Subheadings and paragraphs to group and/or categorize information		$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$	
	. Use of comparison and contrast		$\rightarrow$	$\rightarrow$	$\rightarrow$	$\rightarrow$	
	. Visuals and/or graphic organizers to extend content of written text (e.g. pictures, labels, diagrams)			$\rightarrow$	$\rightarrow$	$\rightarrow$	
	. Summary of events, observations, impressions to highlight what is most important			$\rightarrow$	$\rightarrow$	$\rightarrow$	
V	<ul> <li>Specific features of different formats depending on topics and purposes (i.e. a science report has different features than a news article describing the school community)</li> </ul>			$\rightarrow$	$\rightarrow$	$\rightarrow$	
b. M	dia Texts						
	. Headline or title to indicate contents		$\rightarrow$	*			I
	. Images/ visuals to contribute to description of events, details, or impressions (e.g. in a nonfiction article on plant-eating dinosaurs, a brochure describing the school community, a blog about puppy mills)		$\rightarrow$	$\rightarrow$	*		
	. Images/ visuals to classify and sequence details, recounts, events and information (e.g. in a photo essay, in a local news story, on a website)			$\rightarrow$	$\rightarrow$	*
