1. INTRODUCTION

This definition of the domain for summative evaluation describes and classifies the essential and representative elements of the Sociovocational Integration Services program and, more specifically, of the course entitled Non-Traditional Activities (SVI-1011-2). It is based on the program's organization guide, but should by no means replace the guide itself. It takes into account the diversity of local organizations and the implementation of local projects, while ensuring that all summative evaluation instruments are consistent with the overall program. It is an essential tool for developing summative evaluations that are in line with instructional planning.

The definition of the domain for summative evaluation is used to prepare examinations that are valid from one version to another, from year to year, and from one school board to another, taking into account the division of responsibilities shared by the Ministère de l'Éducation, du Loisir et du Sport and the school boards.
2. PROGRAM ORIENTATIONS AND CONSEQUENCES FOR SUMMATIVE EVALUATION

<table>

3. COURSE CONTENT

3.1 Theme

- **So-called non-traditional activities**
  - Personal resistances and the limiting effect of conditioning on their attitudes regarding non-traditional activities
  - Potential advantages of pursuing a non-traditional career
  - Non-traditional sectors of activity in which they might be interested
  - Means of obtaining more information about the requirements and conditions in these sectors of activity

3.2 Skill

- **Understanding**

  Identifying personal resistances and the limiting effect of conditioning on their attitudes regarding non-traditional activities, and explaining their answer

  Identifying potential advantages of pursuing a non-traditional career, and explaining their answer

  Identifying non-traditional sectors of activity in which they might be interested, and giving reasons for their choices

  Identifying means of obtaining more information about the requirements and conditions in these sectors of activity, and giving reasons for their choices

5. **EXPLANATION OF THE CONTENT AND WEIGHTING**

The expected outcome for course SVI-1011-2 involves a theme and skill that can be weighted according to their complexity.

The theme and skill for summative evaluation have been selected from among those considered essential for achieving the expected outcome of the course: *“evaluate the appropriateness for them of so-called non-traditional activities.”* This theme and skill have been selected and weighted in accordance with the prescribed specifications and participation criteria.

Thus, the students come to **understand** so-called non-traditional activities.

Emphasis is placed on the students’ ability to:

<table>
<thead>
<tr>
<th>Content</th>
<th>Explanation of Content</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Identify personal resistances and the limiting effect of conditioning on their attitudes regarding non-traditional activities, and explain their answer</td>
<td>Because of:</td>
</tr>
<tr>
<td>- the use of critical judgment</td>
<td></td>
</tr>
<tr>
<td>- Identify potential advantages of pursuing a non-traditional career, and explain their answer</td>
<td></td>
</tr>
<tr>
<td>- Identify non-traditional sectors of activity in which they might be interested, and give reasons for their choices</td>
<td>Because of:</td>
</tr>
<tr>
<td>- the potential for integrating new information</td>
<td></td>
</tr>
<tr>
<td>- the potential for seeking meaning in their learning</td>
<td></td>
</tr>
<tr>
<td>- Identify means of obtaining more information about the requirements and conditions in these sectors of activity, and give reasons for their choices</td>
<td>Because of:</td>
</tr>
<tr>
<td>- the potential for using resources in their environment</td>
<td></td>
</tr>
</tbody>
</table>

The theme and skill are weighted as follows:

<table>
<thead>
<tr>
<th>Theme</th>
<th>Skill</th>
</tr>
</thead>
<tbody>
<tr>
<td>So-called non-traditional activities</td>
<td>100%</td>
</tr>
<tr>
<td>Understanding</td>
<td>100%</td>
</tr>

</table>
6. **OBSERVABLE BEHAVIOURS**

Weighting of items

1) On the basis of the activities carried out and the information gathered during the course, identify:
   – two personal resistances and/or limiting effects of conditioning on their attitudes regarding non-traditional activities (6% per resistance or limiting effect)

   For each of the personal resistances and/or limiting effects of conditioning identified, explain their answer (6% per explanation).
   **Criteria:**
   – Appropriate personal resistances and limiting effects of conditioning identified
   – Coherent explanations given

24%

24% On the basis of the activities carried out and the information gathered during the course, identify:
   – three potential advantages of pursuing a non-traditional career (3% per advantage)

   For each of the potential advantages identified, explain their answer (5% per explanation).
   **Criteria:**
   – Appropriate potential advantages identified
   – Coherent explanations given

24%

28% On the basis of the activities carried out and the information gathered during the course, identify:
   – two non-traditional sectors of activity in which they might be interested (2% per sector of activity)

   For each non-traditional sector of activity identified, give two reasons for their choice (6% per reason).
   **Criteria:**
   – Appropriate sectors of activity identified
   – Coherent reasons given

24%

24% On the basis of the activities carried out and the information gathered during the course, identify:
   – three means of obtaining more information about the requirements and conditions in these sectors of activity (4% per means)

   For each of the means identified, give one reason for their choice (4% per reason).
   **Criteria:**
   – Appropriate means identified
   – Coherent reasons given
7. **DESCRIPTION OF THE EXAMINATION**

7.1 **Type of Examination**

The examination required for the summative evaluation can be written or oral, and must not exceed 60 minutes. It is administered at the end of the course. Students are permitted to use course notes and other information.

It may be possible to develop more than one item per observable behaviour. In this case, the marks awarded can be divided among the items, provided that the relative weight of the observable behaviour is taken into account.

7.2 **Partnership**

Partners inside or outside the school may participate in the summative evaluation process.

7.3 **Type of Result**

The result obtained may be expressed as a “pass” or “fail,” or as a mark. The pass mark is set at 60% for the entire examination. The results must be transmitted in accordance with the rules set out in the *Administrative Manual for the Certification of Studies in General Education for Adults and in Vocational Training*. 
8. **BIBLIOGRAPHY**
