1. INTRODUCTION

This definition of the domain for summative evaluation describes and classifies the essential and representative elements of the Sociovocational Integration Services program and, more specifically, of the course entitled Culture of the Organization (SVI-1028-1). It is based on the program’s organization guide, but should by no means replace the guide itself. It takes into account the diversity of local organizations and the implementation of local projects, while ensuring that all summative evaluation instruments are consistent with the overall program. It is an essential tool for developing summative evaluations that are in line with instructional planning.

The definition of the domain for summative evaluation is used to prepare examinations that are valid from one version to another, from year to year, and from one school board to another, taking into account the division of responsibilities shared by the Ministère de l’Éducation, du Loisir et du Sport and the school boards.
2. PROGRAM ORIENTATIONS AND CONSEQUENCES FOR SUMMATIVE EVALUATION

<table>
<thead>
<tr>
<th>Orientations</th>
<th>Consequences</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. “Sociovocational integration involves every dimension of the students,”* including physical, intellectual, emotional, spiritual and social dimensions. Education must target the whole person, including personal, career and social experience and goals.</td>
<td>1. This definition of the domain for summative evaluation takes only cognitive skills into account; socioaffective skills are dealt with by means of formative evaluation.</td>
</tr>
<tr>
<td>2. “Sociovocational integration enables students to learn to learn,”* i.e. to know their own personal way of learning, realize their intellectual potential, facilitate their personal and social development and vocational integration, interact with their environment and broaden their vision of the world.</td>
<td>2. The evaluation should verify the students’ ability to use their critical judgment, generalize their learning, seek meaning in their experiences and learning, solve problems and integrate new information.</td>
</tr>
<tr>
<td>3. “Sociovocational integration permits students to become familiar with and to make use of the social, political and economic environment,”* i.e. to promote and use the natural network of relationships and the environment.</td>
<td>3. The evaluation should verify the students’ familiarity with their environment at the end of the course and their ability to use the available resources.</td>
</tr>
<tr>
<td>4. “Sociovocational integration is an ongoing, permanent process”* in a job market in which people are constantly evolving.</td>
<td>4. Taking into account the local situation, the evaluation should verify the level of correspondence between, on the one hand, the students’ ability to reproduce and transfer their learning without help and, on the other hand, their choice of vocational integration training suited to their preferences, their abilities and their continuing education and training needs.</td>
</tr>

3. COURSE CONTENT

3.1 Theme

- Integration into the organizational culture of a workplace
  - Social norms that are hard to accept
  - Attitudes or prejudices that are favourable to their integration
  - Attitudes or prejudices that are unfavourable to their integration
  - Ways of improving their integration

3.2 Skill

- Understanding

  Identifying social norms inherent in the organizational culture of a workplace that are hard to accept, and explaining their answer

  Identifying attitudes or prejudices that are favourable or unfavourable to their integration into the specific culture of a workplace, and explaining their answer

  Identifying ways of improving their integration into the specific culture of a workplace, and giving reasons for their choices

5. **EXPLANATION OF THE CONTENT AND WEIGHTING**

The expected outcome for course SVI-1028-1 involves a theme and skill that can be weighted according to their complexity.

The theme and skill for summative evaluation have been selected from among those considered essential for achieving the expected outcome of the course: “relate to various organizational cultures.” This theme and skill have been selected and weighted in accordance with the prescribed specifications, participation criteria and second-level operational objective.

Thus, the students come to understand how to integrate into the organizational culture of a workplace.

Emphasis is placed on the students’ ability to:

<table>
<thead>
<tr>
<th>Content</th>
<th>Explanation of Content</th>
</tr>
</thead>
</table>
| - Identify social norms inherent in the organizational culture of a workplace that are hard to accept, and explain their answer | Because of:  
- the potential for seeking meaning in their learning and experiences |
| - Identify attitudes or prejudices that are favourable or unfavourable to their integration into the specific culture of a workplace, and explain their answer | Because of:  
- the potential for transferring learning |
| - Identify ways of improving their integration into the specific culture of a workplace, and give reasons for their choices | Because of:  
- the contribution to the process of vocational integration |

The theme and skill are weighted as follows:

<table>
<thead>
<tr>
<th>Theme</th>
<th>Skill</th>
</tr>
</thead>
<tbody>
<tr>
<td>Integration into the organizational culture of a workplace</td>
<td>Understanding</td>

6. OBSERVABLE BEHAVIOURS

Weighting of items

↓

Numbers in the table of dimensions

↓

1)

20% On the basis of a hypothetical situation presenting various elements of the organizational culture of two types of businesses, identify:
– two social norms that are hard to accept for each type of business presented (2% per social norm)

For each of the social norms identified, explain their answer (3% per explanation).

Criteria:
– Appropriate social norms identified
– Coherent explanations given

24% On the basis of the same hypothetical situation, identify:
– two attitudes or prejudices favourable to their integration into each of the two organizational cultures presented (3% per attitude or prejudice)

For each of the attitudes or prejudices identified, explain their answer (3% per explanation).

Criteria:
– Appropriate attitudes or prejudices identified
– Coherent explanations given

24% On the basis of the same hypothetical situation, identify:
– two attitudes or prejudices unfavourable to their integration into each of the two organizational cultures presented (3% per attitude or prejudice)

For each of the attitudes or prejudices identified, explain their answer (3% per explanation).

Criteria:
– Appropriate attitudes or prejudices identified
– Coherent explanations given

32% On the basis of the same hypothetical situation, identify:
– two ways of improving their integration into each of the two organizational cultures presented (4% per way)

For each of the ways identified, give a reason for their choice (4% per choice).

Criteria:
– Appropriate ways identified
– Coherent reasons given
7. DESCRIPTION OF THE EXAMINATION

7.1 Type of Examination

The examination required for the summative evaluation can be written or oral, and must not exceed 30 minutes. It is administered at the end of the course. Students are permitted to use course notes and other information.

It may be possible to develop more than one item per observable behaviour. In this case, the marks awarded can be divided among the items, provided that the relative weight of the observable behaviour is taken into account.

7.2 Partnership

Partners inside or outside the school may participate in the summative evaluation process.

7.3 Type of Result

The result obtained may be expressed as a “pass” or “fail,” or as a mark. The pass mark is set at 60% for the entire examination. The results must be transmitted in accordance with the rules set out in the Administrative Manual for the Certification of Studies in General Education for Adults and in Vocational Training.
